HANDED TO RUSSIANS

Proposition of President Roosevelt
Is Given Them.

ANSWER SATURDAY.

Without Any Hesitation M. Witte
Informed Baron Komura That
Not One Copeck Would Be
Paid Japan.

Portsmouth, N. H., Aug. 24.—The Japanese plenipotentiaries, at the conclusion of the afternoon session of Wednesday of the peace conference, threw the cards upon the table. It was the dramatic moment—the moment to which all the previous proceedings of the conference had led. The important documents involving agreement upon eight of the twelve conditions originally presented by Japan, had been signed. One side or the other must make a move, the plenipotentiaries had reached the parting of the ways. The adversaries faced each other across the table. Of course, it was well understood what would happen, but that in a way, only made it more dramatic. Figuratively, President Roosevelt suddenly entered the conference room.

M. Witte sat in silence and the move in the great diplomatic game passed to Japan. Baron Komura in a few words explained that Japan in her great desire for peace was ready to make certain modifications of the original articles in the hope that Russia would find it possible to accept them. He then presented in writing to M. Witte the compromise proposition, which President Roosevelt had suggested. It was concrete and specific, and it followed the lines outlined in these dispatches. It offered to withdraw article 8, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept article 5, which provided for the cession of the Island of Sakhalin, so modified as to include an arrangement for the repurchase by Russia of the northern half of the island for 1,200,000,000 yen. In addition it offered to withdraw entirely articles 11 and 12 (surrender of the interned warships and limitations upon Russia's sea power in the far east). It was President Roosevelt's compromise and M. Witte knew its contents as well as Baron Komura. The question of whether he had been "bluffing" was put to the test.

Without a moment's hesitation M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to "dorer la pilule," and ask Russia to pay war tribute under another name. He could not accept it. He told Baron Komura Russia wanted peace. She had given the proofs in accepting every article involving the issues upon which war was fought, but she could fight, and money for tribute she would not pay, not a copeck.

He asked Baron Komura to withdraw all demands for tribute. And so the plenipotentiaries separated to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise.

From an authoritative Japanese source the Associated Press is informed that the proposition to divide the Island of Sakhalin came from the Russian side.

LASTED THREE HOURS.

Long Cablegram Was Sent to Washington at Its Conclusion.

St. Petersburg, Aug. 24.—Mr. Meyer, American ambassador, had an audience with the emperor at St. Petersburg Wednesday afternoon which lasted three hours. Presumably the matter of peace was discussed at length, but nothing can be ascertained at present regarding what actually took place, as the embassy declines to give out any statement. It is known, however, that a long cablegram has been sent to Washington giving the results of the conference.

President Roosevelt Monday sent a long cable message to Mr. Meyer.

LAWYERS IN SESSION.

Nearly Every State in the Union Represented at Narragansett Pier.

Narragansett Pier, R. I., Aug. 24.—Between 200 and 300 leading members of the bar, representing nearly every state in the country and including Justices White, Brown, Peckham and McKenna of the supreme court of the United States, were present at the first sessions of the twentieth annual meeting of the American Bar association. Others among the jurists include many members of the teaching staffs of the country.

The principal feature of the day's proceedings was the address of the president, Henry St. George Tucker of Virginia.

Among members of general council elected are S. F. Bledsoe of Muskogee, E. E. Blake of El Reno, Charles Worden of Fort Worth and E. F. Florence of Baton Rouge.

Ran Over Corps.

Laredo, Aug. 24.—A passenger train from Saltillo ran over a Mexican on the track about sixteen miles from Laredo but it was evident from the condition of the body that he was dead when struck by the train.

This fact will save the crew of the train from arrest and trial in the Mexican courts.

FEVER SITUATION

Death Rate at New Orleans Shows a Decided Decrease.

New Orleans, Aug. 24.—Following is the official yellow fever report up to 6 o'clock Wednesday evening: New cases, 53; total 1556; deaths, 5; total deaths, 229; new foci, 10; total, 382; cases under treatment, 312. The report continues to show an improvement in local conditions. There are no well known names on the list of new cases or among the deaths. Only one of the latter occurred uptown.

The state board of health has taken steps to relieve the distress at Leesville, at the mouth of Bayou Lafourche.

Past Assistant Surgeon Caput made an elaborate report of the work done in St. John and St. Charles parishes, and this indicates that what threatened to be a very serious group of foci has been controlled with good hopes of stamping out the infection. This report covers La Place, Diamond, Reserve, Sarpy and other neighboring places.

Dr. Brady returned from his tour of inspection on Bayou Pigeon in Iberville parish, where a large group of suspicious cases were reported, but he says there was no suspicious cases there. Hanson City reports nine cases. Willwood plantation, in Jefferson parish, reports two more cases.

One additional case was reported from St. Rose and another at a point near that town in St. Charles parish. Patterson reports eleven new cases and no deaths.

St. Bernard parish reports two more cases in the Italian village, and Dr. Meraux, who went to Terre Aux Boeufs, says there are five cases there and three suspicious cases.

Mississippi City reports three new cases.

Dr. Von Eudorff of the marine hospital service, ordered here from Colon by General Wyman, arrived at quarantine on the steamer Origen.

Dr. Krauss, marine hospital service inspector, reported to the city board of health of Vicksburg that he had found four positive cases of yellow fever at Lake Providence, East Carroll parish. There are one or two suspected cases not yet diagnosed. These cases are supposed to have developed from the original fever case at Lake Providence, an Italian woman who died two weeks ago.

A report says that Dr. Deveron reported that he had found 170 cases of yellow fever and 200 cases of dengue at Leesville, and conditions were such that help was needed immediately.

WILL CASH WARRANTS.

First National Bank of New Braunfels Agrees to Do This.

Houston, Aug. 24.—Dr. Tabor received a telegram from President Faust of the First National bank of New Braunfels stating his institution will cash and carry \$1000 of the deficiency warrants issued by the governor. He also received the following from Dr. Florence, assistant state health officer at Echo: Meeting in Beaumont in regard to asking United States authorities to charge is all newspaper talk. There was no quorum at the meeting. Everybody satisfied.

Epidemic Feared.

Brownsville, Ill., Aug. 24.—With over 300 laborers here exposed to the contagion by a negro from Shreveport, who admits he came from an infected yellow fever point in the south, and who now lies critically ill with fever at a camp near here, the people of Brownsville are in fear of the epidemic becoming general at this point. Strict quarantine regulations have been instituted.

Three New Cases.

Jackson, Miss., Aug. 24.—Dr. Charles Le Baron, in charge of the fever situation at Mississippi City, reports three new cases of fever there, but no deaths.

RECEIVED WITH JOY.

Launching of Separate Statehood Movement in Oklahoma.

Muskogee, Aug. 24.—News of a separate statehood movement by Oklahoma was joyously received here. Work on constitution for Indian Territory was inaugurated by appointment of eleven committees. One more is to be appointed. A report is expected Tuesday.

Tulsa, Muskogee, Eufaula, South McAlester, Okmulgee and Wagoner are candidates for capital city of the proposed state.

HILL ARRESTED.

President of Defunct Denver Savings Bank Is at South McAlester.

South McAlester, Aug. 24.—J. A. Hill, president of the defunct Denver Savings Bank, was arrested here by Chief of Police Collier on information from the enver authorities, who asked that Hill be held until their arrival. When arrested Mr. Hill stated that he would return to enver without protest or requisition papers. Pending the arrival of the Denver officer, Hill is being kept under surveillance. He is not confined.

Loomis Resumes Duties.

Washington, Aug. 24.—Assistant Secretary of State Loomis has returned to the department and resumed his duties as acting secretary of state. He will remain here several days.

Oliver Lott, a negro, killed John Helton, a white man, near Selma, Ala., badly shot Harry Helton, a brother. A mob slew the negro. G. Talley, one of the mob, was mortally wounded.

FRIDAY, AUGUST 25.

CENTRAL "CUT-OFF" A BLUFF.

So Regarded by the Trinity and Brazos Valley Railway People—An "Interview with Lots of Ginger In It—Mr. Baker Talks.

Mr. R. H. Baker, president of the Trinity and Brazos Valley railway, handed to the press yesterday an interview on the subject of the "cut-off" projected by the H. & T. C. railway from Mexia to Navasota.

The purport of Mr. Baker's expressions is that the Southern Pacific railway want a monopoly of the tonnage to the gulf; or rather that they wish to retain the monopoly that they have.

Mr. Baker thinks that the H. & T. C. railway does not really need or desire the "cut-off," but that it is a stock-market play, intended to hamper the Trinity and Brazos Valley people. He says:

"This sudden activity on the part of the Central road does not mean it will construct this line, but its object is to prevent the financing of the Trinity and Brazos Valley to the gulf. It may be interesting to them to know they have failed in their object, for the line has been financed; we have the money to build it, and that at once; contract has been let, construction under way."

Mr. Baker further intimates that the Central people are not in earnest about building the line. He further says:

"It, however, is only recently that the Houston and Texas Central has announced its plans, and not alone through the press of the State and throughout the East, but all along the line in hastening men on the field, ordering supplies with which one would scarcely feel a trunk line would be built. That is, relaying steel when new steel could be had for immediate delivery."

Mr. Baker continues:

"If the Houston and Texas

Central wanted to cover this territory, why have they not done so in the years that have passed? Every man along the line of our right of way knows that for twenty years they have been not only wanting but making every effort to get the very line we are now building. Why is the Houston and Texas Central now so pressed for time, depositing money in banks in that section, paying for land and crops, shouting from the tree tops, announcing these deposits and that they have suddenly decided to spend \$2,000,000 and save seven miles between Mexia and Navasota?"

"Railroad owners and builders," continues Mr. Baker, "as well as men in other walks of life, at times make unwise investments, and do things that would seem very unwise. It would seem the Houston and Texas Central would not be very far removed from this class in building a hundred miles of track paralleling its own line with a cut-off that would save something less than seven miles between Mexia and Navasota. The Central's line now leaving Mexia passed through Groesbeek, Calvert, Hearne, Bryan and other good points; but it would seem they desire what is termed a cut-off, spending some \$2,000,000 to save seven miles.

The Eagle does not believe that the people of Bryan need be nervous through any fear of the Central deflecting its main line to the proposed "cut-off." The Central cannot afford to lose anything here to be picked up by the I. & G. N., and it will be a long time before its splendid roadbed here will be equalled for speed by a new line, especially one on which relay or second-hand rails will be laid. A railroad man of some experience says that the "cut-off," by crossing in the other road so often as it does, can be used to tie up construction of that line several years. He thinks this may be the purpose of the H. & T. C. people in their procedure.

THE SOLAR ECLIPSE OF 1905.

Hunter & Chatham

Men's Furnishers

north of Newfoundland, crosses northeastern Spain, northeastern Algiers, and northern Tunis, passes centrally over Assuan on the Nile, and ends at sunset in southeastern Arabia. The duration of totality on the coast of Labrador, in Spain, and at Assuan, is two and a half, three and three-fourths, and two and three-fifths minutes respectively. Yet in that short interval much may be learned with regard to the corona, that mysterious crown of pearly light that surrounds the sun and can be seen only at the time of a total eclipse.

There is nothing of special interest until the solar disk is mostly covered by the moon as it glides between the sun and the earth. Then a peculiar change is noticed in the appearance of the sky, which becomes tinted with a grayish hue as at evening. The shadows cast by the foliage begin to look usual, for the light shining through every small space among the leaves, instead of forming a little circle on the earth, makes a little crescent, an image of the partly covered sun. Some ten minutes before totality the darkness begins to be felt and a sense of uneasiness pervades the scene. Birds cease their song and hasten to their nests twittering to each other as at twilight, grasshoppers cease their chirping, and even the flowers have been known to close their petals as at twilight.

MONUMENT UNVEILED.

Vice President Fairbanks Delivered the Principal Address. Ogdensburg, N. Y., Aug. 24.—In the presence of Vice President Fairbanks, veterans of northern New York united with Ransom post, Grand Army of the Republic, here in unveiling a beautiful monument in Liberty Park, commemorating the patriotism of soldiers of the town of Oswatchie, who fell in the Civil war. The largest crowd in the town's history was present. Vice President Fairbanks delivered an address.

Max Maxwell, a quarantine guard near Texarkana, accidentally and painfully shot himself.

The little child of Frank Christiar was drowned in an irrigating canal near Garrett, Beaver county, Oklahoma

COMPARES CONDITIONS

More Difficult to Fight Pest at New Orleans Than Havana.

AS BAD AT LEEVILLE

One Hundred and Seventy Cases of Yellow Fever, Two Hundred of Dengue and Nurses and Doctors in Demand.

New Orleans, Aug. 24.—Describing the yellow fever situation here Surgeon White of the marine hospital service said it was more difficult to stamp out the fever at New Orleans than in Havana, for whereas in Havana few were few, here they existed to the extent of more than 100 when the marine hospital service took charge. Another important fact was that in Havana a majority of the people were immune, while in New Orleans they are not, no general epidemic having occurred here for twenty-seven years. Dr. White said he wanted particularly to praise the general public of New Orleans for the assistance that was being given him.

Governor Blanchard, in extolling the work of the Federal officers, said the campaign was of immense importance

DR. JESSE W. LAZEAR.

to Louisiana, to the entire south and even to the civilized world. If it could be demonstrated as a scientific fact that the fever could be stamped out before frosts the industrial development of the state of Louisiana would be given a remarkable impetus.

Dr. Devron, writing to the state board of health, describes conditions at Leeville as pitiable with 170 cases of yellow fever and 200 cases of dengue and only two doctors to attend the patients. Dr. Ralph Osmarcor, formerly of the navy, has gone to Leeville, and the board will send additional nurses and doctors as soon as it can collect them. It is desired to prevent an exodus of Leeville people to New Orleans to increase the infection here, and for that reason the board is anxious to give all assistance possible to Dr. Devron.

Pass Christian has opened her doors to all points on the Mississippi coast except infected Mississippi City, but still refuses to have any communication with New Orleans.

Wilson, La., has quarantined all freight trains that run south of Baton Rouge on the Mississippi Valley.

Responding to protests, the Illinois Central has given orders to run its own trains and those on the Mississippi Valley at full speed through Kenner and Hanson City, both of which towns are infected.

The appearance of a number of new cases at Lake Providence, on the Memphis, Helena and Louisiana railway, has caused a revival of quarantines against that city.

There have been no fresh cases at Alexandria and Bunkle seems to have completely stamped out its focus, but the fever continues to spread at Riverside and Patterson, in St. Mary's parish, and the parishes of Jefferson, St. Charles, St. Bernard and St. John, which are in close proximity to New Orleans.

A case of yellow fever developed here in the parish prison. The prisoner, Ferdinand Gillman, was arrested eighteen days ago. He was taken sick Wednesday and removed to the prison hospital. Surgeon Lillie of the marine hospital service diagnosed the case. The prison will be thoroughly disinfected.

It is announced that Mrs. Charles L. Wells, wife of Dean Wells, of Christ church cathedral, is at last convalescent. Concerning her case Dr. Gayle Alken said that Mrs. Wells was the fittest person to recover he had seen during his entire professional career.

Dr. R. B. Leach of Minnesota says he is making preparations to return home and will leave here Saturday, having abandoned his effort to secure actual test of arsenization theory. The doctor said he had come here to fight mosquitoes, not doctors, but that it appeared the government had been called in to suppress arsenization. A meeting of citizens supporting Dr. Leach has passed resolutions deploring the confession by the state and city boards of health of their inability to control the fever, but tendering "everlasting thanks and appreciation" to President Roosevelt for having so readily come to the rescue. The meeting declared its full confidence in the mosquito theory, pledged its support to the marine hospital service and declared that their desire for the test of arsenization did not involve any intention to disregard any precautions deemed necessary.

Up to noon Thursday there were twelve new cases of yellow fever and three deaths.

Professor Robert Boyce, of the Liverpool School of Tropical Medicine, who comes to assist in the fever fight has reached here. He was met by representatives of physicians and visited the offices of the marine hospital service, where he was cordially received.

GUARD AGAINST GERMS.

Keep Well by Strengthening the Stomach in Summer With Miona.

In time of war the most responsibility rests upon the guard. If he is lacking in vigilance, disaster can easily overtake the army.

With the individual life, the stomach may well represent the "guard" against sickness. If it is strong and vigilant, any disease germs that may be swallowed will be neutralized by the digestive juices, or else driven from the stomach.

Everyone with weak digestion should use Miona at this season and so strengthen the stomach that disease germs can have no effect whatever. This remarkable remedy puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, that any disease germs which may enter the stomach will be destroyed, and food will be so readily assimilated that a rapid and healthy increase in flesh will result.

Nervousness and sleeplessness come more often from a weak stomach than from any other cause; head-ache, back-ache, and rheumatic pains are directly caused by an acid condition of the stomach. Miona corrects all this, prevents the formation of acids, and nervousness, kidney trouble, or rheumatism, is quickly cured.

Ask E. J. Jenkins to show you the guarantee under which he sells Miona. Price 50 cents. It costs nothing unless it cures.

B. P. Wilson invites your patronage for all kinds of first class fresh meats and market products. Konecny stand, city market building. Telephone 381. d105-1f

J. R. Collier and family of Mumford have moved to Waco, where Mr. Collier has purchased one of the handsomest homes in the city. Mr. Collier's son, Robert, will enter upon his second year's duties in the Baylor University. If it hadn't been for that, Mr. Collier would have moved to Bryan in order to put his daughter in the Texas Woman's College. The people in this section will miss this family very much, and sincerely hope that he will continue to prosper. Mr. Collier will spend a good portion of his time in Mumford looking after his business interests there.

Parties came in from Grimes county Wednesday night to get a coffin for Mr. Henry Moon, who died of pneumonia at his home near Keith. He was a good man and leaves a family and many friends to mourn his death. His remains were laid to rest yesterday.

The Bryan first team beat the Navasota first team in a ball game yesterday, by a score of 13 to 0. The batteries were: Bryan, Parker and Hamilton; Navasota, Forrester and Faulker. Nine innings were played.

W. J. Coulter returned from the Eastern markets Thursday night. Walter says there is nothing short about the stock of goods that will soon crowd the shelves of Coulter's cash store and Coulter's kitchen.

The Eagle is requested to announce that ice cream and cake will be served at the home of Mrs. J. F. Parks Friday, Aug. 25, from 5 to 7:30 p. m., for Baptist church benefit. Everybody cordially invited. 224

Miss Bessie Gibson returned to Calvert yesterday after a delightful visit to Miss Louise Harris. Misses Louise Harris and Allie Conway accompanied her to Calvert to be her guests.

Don't make any other engagement for next Monday evening. Everybody, young and old will attend the tacky party at the home of Mr. and Mrs. Robt. S. Webb. 226

Grass in the I. & G. N. railroad yards caught on fire and burned yesterday, which accounts for the dense smoke that was seen from the Main street.

Mosquito bars. We have them. Come Thursday and Friday to get one cheap. Wilson & Edge. 223

For Sale Cheap—A few pieces of furniture. Apply to Mrs. B. S. Read. 226

THIS WEEK ONLY

Our deepest and final cut on

BRAZOS COUNTY TAX ROLLS.

Submitted by Tax Assessor John McCullough—A Good Increase Over Last Year.

Land, 368,270 1-6 acres.....	\$1,648,824
Town property.....	880,640
Horses and mules, 5,334.....	186,900
Cattle, 13,678.....	74,540
Jacks, 35.....	1,285
Sheep, 1559.....	1,559
Goats, 719.....	439
Dogs, 28.....	9,813
Hogs, 5856.....	700
Vehicles, 1946.....	42,938
Merchandise.....	248,260
Mfg. tools and machinery.....	56,850
Steam engines and boilers.....	18,100
Money of banks, etc.....	31,495
Credits.....	48,670
Bonds and stocks.....	300
Shares and capital stock.....	1,000
Miscellaneous property.....	86,846

Total valuation..... 4,375,586
This shows an increase over last year's assessment of \$124,450. Percentage of increase, .03074.

The rolls are very neat and business-like in order and arrangement. Mr. M. G. Nall, Mr. Silas McCullough and Miss Villa McCullough assisted the assessor in the work of compiling the rolls. Mr. Nall explained them with the changes in the work required by the latest laws, and The Eagle can say without extravagance that the work is as neat and business-like as can be. The increased valuation is creditable to the financial condition of the county.

Straight-Front Corsets are going out. At least so the dressmakers have decreed, and their usually stupid and time-serving word is law. The round kind, whatever they be called, that crush all the organs into the space of one, are to be restored, to give variety to the female form and work to the profession which flourishes by making new garments while the old are still as good as new. Modern male dress is ugly and hygienic. Modern European and American female apparel substitutes an artificial idea of beauty for one which was good enough for Phidias. In place of a covering which respected the functions and needs of a healthy human animal, our women have invented a cage to decrease their vitality and make a natural life difficult and rare. Sheep rush madly about a pasture,

not in search of any comprehensible ideal, but because one sheep started, and emotion increases with each sheep that joins. Likewise reasonable is the tendency of women to imitate an hour-glass in despite of nature. The straight-front corset has been perfectly satisfactory to her, and she has no idea why she is about to give it up. —Collier's for August 26, 1905.

CASE IN MICHIGAN.

Patient, a Lineman, Left New Orleans on Tuesday of Last Week.

Detroit, Aug. 24.—A News special from Grand Rapids, Mich., says: A case of yellow fever has been discovered at Crockery township, Ottawa county, ten miles from here. The patient, Godfrey Limburg, a telephone lineman, left New Orleans Tuesday of last week. He was taken sick Saturday, but a physician was not called for several days. His temperature reached 105.

WATCHING RUSH.

General Frank D. Baldwin Attends Reservation Opening.

Oklahoma City, Aug. 24.—General Frank D. Baldwin, commander of the Southwestern army division, headquarters in this city, is spending a few days in the Uintah country attending the opening of the reservation. This country comes under General Baldwin's jurisdiction and he takes advantage of the opportunity to see the country and watch the rush for new homes.

MINOR MATTERS.

Assessed values of Fayette county, Texas, are \$8,372,610.

Strikes have ended in factories at Warsaw and Lodz, Poland.

Fort Sill has ordered 200 barrels of coal oil to exterminate mosquitoes.

Work has been resumed on the Wichita mountain dam near Lawton.

Slight earthquake shock was felt near Turner Falls, I. T., Monday night.

A rattlesnake fourteen inches in circumference was killed near Davis, I. T.

A Bowie, Tex., firm shipped a carload of chickens east. They are valued at \$1200.

Southern spinners of soft and hosiery cotton yarns meet at Atlanta Sept. 2.

First National bank of Kingston, I. T., capital stock \$25,000, has been organized.

Four attempts to wreck Katy trains north of Denison have been made past few days.

Robert Wilson was shot and killed at Batson, Tex. R. L. Maxwell's bond was placed at \$500.

STATE FAIR OF TEXAS DALLAS, TEXAS

SEPTEMBER 30--OCTOBER 15, 1905

ANNOUNCEMENT.

The present organization, known as the State Fair of Texas, stands today without a parallel in the history of Fairs. It is owned and managed by some fifteen hundred of the most prominent citizens of Dallas, who have donated the money to build a fire-proof auditorium and exposition building on the Fair Grounds, costing \$100,000 and in addition to this have advanced the princely sum of \$90,000 for premiums, purses and attractions that the Fair of 1905 may go down into history as the largest and grandest event of its kind ever given in the Southwest.

Every stockholder of this institution has signed an agreement to donate his stock for the good of the cause, and under a contract with the City of Dallas, it is agreed that no officer nor director, other than the Secretary, shall receive any compensation for his services and that every dollar earned by this Fair during the next twenty years shall be expended in the effort to make each succeeding Fair better than the last.

The gates of the Twentieth Annual Fair will open at 10 a. m., Sept. 30, 1905, the Fair continuing sixteen days.

During this period the public is assured of sixteen days solid pleasure and recreation, as well as the opportunity of seeing the largest and best display of live stock ever collected together in the South.

The lovers of speed horses are assured thirteen days racing with high-grade horses, competing for purses aggregating \$30,000, and last, but not least, the homeseeker will have an opportunity to examine a complete display of the varied resources and industries of Texas, as well as those of her sister states.

For further information and details address the State Fair of Texas, Dallas, Texas.

Yours respectfully,

STATE FAIR OF TEXAS

C. A. KEATING, President.
SYDNEY SMITH, Secretary.

CROUP

Croup and inflammation of the larynx are instantly
relieved and permanently cured by the use of One
Minute Cough Cure. This never failing prescription
of an eminent physician was given the name of ONE
MINUTE COUGH CURE because instant relief has
always followed its use. It takes effect at the seat of
the trouble and acts on the inflamed membranes in-
stead of passing wholly into the stomach and dragging
or stupefying the system. Gives relief instantly.

CURED

It destroys the disease germ, clears the phlegm and
draws out the inflammation, thus removing the cause
and curing permanently. One Minute Cough Cure is
perfectly harmless, good for children and they like its
taste. Prepared only by E. C. DeWitt & Co., Chicago.
An ideal remedy for children. Do not forget the name.

ONE MINUTE

For Sale by Emmel & Maloney.

TO TOUR TEXAS.

Komura, the Japanese Peace Envoy,
Will Visit Lone Star State.

Houston, Aug. 24.—General Passenger
Agent Anderson of the Southern
Pacific railway, has received a letter
from Baron Komura, the Japanese
peace envoy, saying that on his return
to San Francisco to embark for home
it is his intention to visit Texas. He
hopes to spend some time in various
cities of the state, and will stop at
Japanese settlements.

TERRIBLY MANGLED.

Hands and Feet Cut Off and Leg and
Arm Hang in Shreds.

Gainesville, Tex., Aug. 24.—Howard
Bush, a young man, was instantly
killed by the northbound Santa Fe pas-
senger train. He was terribly mangled.
Both hands and both feet were cut en-
tirely off, his right leg and right arm
were hanging by shreds, a deep gash
four inches long was cut in his left
thigh and his head was badly cut and
bruised. Engineer Joe Girard says the
young man was asleep on the track and
was not observed until too late to stop
the train. The accident happened
about three miles north of this city.

MORE STATE BANKS.

Austin Will Have a Street Fair and
Carnival in November.

Austin, Aug. 24.—State banks were
incorporated as follows Thursday:
First State bank of Ravena, capital
stock \$10,000; Farmers' State bank of
Georgetown, capital stock \$50,000.

Now that the announcement has been
made that no encampment will be held
this year, by Colonel J. L. Peeler,
chairman of the old carnival commit-
tee, states that one of the biggest car-
nivals and street fairs will be held at
Austin in November.

Canning Factory Proposition.

Austin, Aug. 24.—The business
league of Austin will consider the propo-
sition made by A. G. Chapman, an
attorney of Buffalo, N. Y., representing
a large canning company, to establish
a canning plant here with a capacity of
about 1,000,000 cans per day. All kinds
of fruit and vegetables will be canned
if the factory is located here.

MYSTERIOUS DEATH.

Galveston Man Dies at Dallas From
Effects of Poison.

Dallas, Aug. 24.—W. E. Green of
Galveston and wife registered at a
local hotel Saturday About 2 o'clock
Wednesday afternoon Mr. Green was
taken suddenly ill and that night died.
Attending physicians stated he died
from opium poisoning. A man and
woman have been arrested.

VIRGINIAN WRATHY.

Displeased at Waiters' Lack of Atten-
tion He Created a Scene.

New York, Aug. 24.—Incensed by
lack of attention in a well known up-
town restaurant last night, a man who
said to be Col. Tazewell Elliott of Rich-
mond, Va., gave battle to several wait-
ers and caused a stampede of diners to
the street. Police who interfered were
badly mauled by the colonel and it re-
quired the joint efforts of five blue-
coats to land him in the station.

Just what started the battle is not
known. The unusual noise attracted a
big crowd around the doors and the po-
lice had to force their way in. They
found the irate colonel chasing the
waiters in all directions. He was
dragged to the sidewalk and on reach-
ing Broadway he turned on his cap-
tors, knocking four of them down in
quick succession. Reserves were called
and the prisoner was soon overpow-
ered by the reinforcements.

SOCIAL ORGANIZATION.

Rev. Dr. Morgan Criticizes American
Protestant Churches.

New York, Aug. 24.—A criticism of
the Protestant churches was voiced by
Rev. G. Campbell Morgan, D. D., who
has been working in the late Dwight
L. Moody's place at East Northfield,
Mass. When on the point of sailing for
Europe, Dr. Morgan said: "The Amer-
ican church does not seem to be much
more than a social organization now.
Its members spend more time develop-
ing along social lines than they do
along spiritual lines. The business
men, the influential Christians and oth-
ers do not o their duty. Wrapped up
in their own affairs they are so busy
in the pursuit of frivolity that they lose
track of the way and forget the plagues
they made to their church."

Dies From Injuries.

Kansas City, Aug. 24.—Jasper Wen-
tel, a railroad laborer of Ballard, Tex.,
was run over by a Missouri Pacific
switch engine near Hissli's brewery.
His right arm was cut off above the el-
bow. He was taken to the general
hospital, where he died four hours
later. It was supposed that Wentel
was asleep on the track.

Oklahoma's First Bale.

Tempe, Okla., Aug. 24.—The first
bale of cotton for Oklahoma of this
year's crop was marketed at Tempe,
Okla. It brought \$103. Cotton in sev-
eral sections is almost ready for pick-
ing and by next week it is expected
that picking will be general.

Four Hurt.

New York, Aug. 24.—Two men and
two women were badly hurt in a col-
lision between a trolley car in Brook-
lyn and an automobile returning from
Bergen Beach. It is thought both wo-
men and one of the men will die.

Stranded in France.

Washington, Aug. 24.—The state de-
partment has received a cable dispatch
saying that 200 Americans belonging to
the Maccader circus are stranded at
Grenoble, France.

Outbreak Feared.

New York, Aug. 23.—An outbreak of
rival Chinatown societies is feared.

ACTRESS' GOOD LUCK.

Falls Heir to Part of a Late British
Baronet's Possessions.

San Francisco, Aug. 24.—The Exam-
iner says that Miss Lilly Belle Browne,
an actress, known in the profession as
Miss Ida Warren, has fallen heir to
one-third interest in an estate valued
at \$5,000,000 left by Sir Reginald Tracey,
an English baronet. It is said Sir
Reginald before attaining to the title
met Miss Browne and her mother, a
widow at Washington, D. C., and be-
came engaged to her, but died pending
the marriage in Australia, where he
had gone to settle some matters con-
nected with the estate. He left the
money, it is said, to Mrs. Browne, who
being in weak health turned it over to
her daughter.

BENZINE EXPLODED.

Dr. Reninger Lost His Life In Conse-
quence of the Accident.

Chicago, Aug. 24.—A dispatch to the
Tribune from St. Louis says: Dr.
William Rininger, a member of the
faculty of Marion Sims Medical col-
lege, was killed by an explosion of ben-
zine in the laboratory of his home.
The sacrifice of his life was indirectly
due to his zeal in prosecuting a system-
atic study of the symptoms and cure
of consumption.

He was cleaning the lens of his mi-
croscope by the light of a gas jet when
the fumes of benzine which he was
using as a cleaning agent became ig-
nited and the explosion followed.

Dr. Rininger was an enthusiastic
microscopist and in the last six
months had devoted much leisure to
the study of consumption.

REMARKABLY SEVERE.

Atlanta Visited by an Electrical Storm
of Great Intensity.

Atlanta, Aug. 24.—An electrical
storm of remarkable severity, accom-
panied by a high wind, visited this city
Wednesday. James McDaniel, eighteen
years old, was killed by lightning near
the center of the city. The Kimball
House and the state capitol were
struck twice by lightning, but no seri-
ous damage was caused to either build-
ing. Fully 1000 telephones are report-
edly burned out, a score of electric street
cars were burned out, awnings were
carried away and numerous cellars
were flooded. Seven-tenths of an inch
of rain fell in ten minutes. The dam-
age will amount to several thousand
dollars.

CHINESE OUTRAGE.

Roman Catholic Church Attacked and
Many Priests Killed.

Vancouver, B. C., Aug. 24.—Word is
received by the Empress of China that
an outrage in Yunnan province show-
ing the revival of fanatical antagonism
to christian colonization.

Official advices reaching Pekin state
that a mob of 1000 Buddhist Llamas was
a preconcerted arrangement to drive
the Christians out of their province
attacked the various French Roman
Catholic establishments on the coast of
Sawaho, wrecking one church and kill-
ing many priests, the number being
variously stated at between eighteen
and twenty-three, with others wound-
ed.

The French minister at Pekin has
made strong protests to the Chinese
minister, demanding effectual punish-
ment.

Damage Trifling.

Liverpool, Aug. 24.—Fire broke out
in the stowage of the White Star line
steamer Oceanic but it was promptly
extinguished by the crew. The damage
was trifling.

PROPOSED BOYCOTT.

Six Articles of Agreement That Were
Adopted For Enforcement.

Yokohama, Aug. 24.—The anti-Amer-
ican boycott as telegraphically reported
has been received here. The first in-
dication of its presence was on July
26, when local Chinese refused to give
any freight to the steamer Manchuria,
due to leave for Hongkong July 28.
The reasons stated by the local Chi-
nese was that that no Coolies at Hong-
kong dare discharge such cargo. The
movement slowly continued until on
Sunday, Aug. 6, a meeting of repre-
sentative Chinese was held at the Chi-
nese House of Commerce at Yokohama,
when the proposed boycott was consid-
ered under five heads. These were
banking, shipping, insurance, other
lines of business and employees. There
was much eloquence from organizers
of the meeting, who talked of patriot-
ism and necessity that Chinese resi-
dents of Yokohama, the great port,
should fall in line with their brethren
elsewhere. Finally it was resolved:
First—Not to deal in American goods.
Second—Not to ship any goods on
American steamers (more particularly
to Chinese as Chinese relatives would
be punished).

Third—That any Chinese merchant
doing such business through another
will be dealt with as if business had
been done by him.

Fourth—Not to do business with any
American banking or insurance com-
pany.

Fifth—Some indulgence to be grant-
ed on account of goods to be shipped
to ports whither none but American
steamers ply.

Sixth—Any Chinese infringing on
these resolutions to be subject to a
heavy fine.

The matter of Chinese employees
leaving their posts was postponed.

Some of the compradores present
complained that they were under con-
tract to their employers and if they
were to leave it would mean their ruin.

To this it is urged that a fund has
been established at Shanghai to pro-
vide for such cases, but the compra-
dores wished for some documentary
assurance of this before they took ac-
tion. It was agreed to obtain such as-
surance from Shanghai.

There are more Chinese than people
of any other foreign nationality in Yo-
kohama, the latest census giving 7142.
The movement has excited no particu-
lar flurry here, though there is some
talk among certain Americans of re-
taliation by withdrawing patronage
from Chinese tailors, who monopolize
that business, and establishing Amer-
ican tailors. The boycott, it is feared,
may injure the shipping companies
severely if it is long maintained.

ARE DISAPPOINTED.

Dr. Tabor Is Being Criticised by People
of Shreveport.

Shreveport, Aug. 24.—As the days
follow each other without reply from
Dr. Tabor of Texas to the request from
Shreveport of removing Texas quaran-
tine against this city the first feeling of
confidence is being succeeded by one
of disappointment, mingled with re-
sentment, and much angry criticism is
being indulged in.

General distribution of four tons of
sulphur purchased by the city to carry
out compulsory fumigation ordinance
begins at once. Ruston and Mansfield
have wired abandonment of quarantine
against Shreveport.

Children Fatally Poisoned.

Corpus Christi, Tex., Aug. 24.—Two
children have died here within twenty-
four hours from poison. The little girl
of Refugio Garcia was poisoned by sar-
dines and the young daughter of Ga-
vine Trujillo ate roach paste with fatal
effect.

How the Condor Is Caught.

Many birds cannot fly straight up.
They must rise at a very gentle in-
cline. They must get onward motion
before their wings can get full effect
of the air. It is said that the mode of
taking the condor is to build a pen,
say, forty or fifty feet in diameter and
six feet high and put a carcass in the
middle of it. The condor alights, but
cannot again rise at an angle which
will take him over the fence. Many
heavy bodied, short winged ducks rise
from the water at so small an angle
that they must use both feet and wings
for thirty or forty feet in order to get
onward motion enough to give effec-
tiveness to their wings by coming in
contact with larger masses of still air.

Oxford Examinations.

When John Scott, the future Lord
Chancellor Eldon, took his B. A. at Ox-
ford in 1770 he was examined in He-
brew and in history. His own pen has
recorded this noteworthy "exam." It
consisted of two questions, one in each
subject. The Hebrew question ran,
"What's the Hebrew for 'place of a
skull'?"—the history, "Who founded
the University of Oxford?" The candi-
date, of course, replied, "Golgotha" and
"Alfred the Great," though he had his
misgivings touching the truth of the
second answer, a fiction which has
since been scattered to the winds by
those two highly distinguished Oxon-
ians, Professor Freeman and J. R.
Green.

The Gallows Plant.

During the middle ages the botanists,
or old "herbalists," gave currency to
many curious stories concerning the
growth, form, etc., of mandrake or
May apple, which finally resulted in
its being given the name of "gallows
plant." The pseudo scientists of that
time declared that mandrake would
grow in no other place except upon
which some terrible crime had been
committed. The roots were formerly
supposed to bear a strong resemblance
to the human form.

THROUGH TEXAS

The I. & G. N. R. R. has many fast trains through Texas, trav-
ersing the greatest portion of the state, and reaching nearly all of
the large cities, affording travelers every convenience and comfort to
be found on the modern railroad. High-class equipment and
power, seasonable schedules, splendid dining stations, Pullman
Buffet sleeping cars, and courteous agents and train attendants.

DIRECT TO ST. LOUIS

The I. & G. N. R. R., in connection with the Iron Mountains sys-
tem, operates Four limited trains daily between Texas and St.
Louis, the service being four to eight hours quicker, and 100 to 150
miles shorter. These trains have Pullman Buffet Sleepers and
Chair cars through without change, and connect morning and even-
ing in Union Station, St. Louis, with all the Northern and Eastern
lines. A la carte dining car service between Texarkana and St. Louis

DIRECT TO OLD MEXICO

The I. & G. N. R. R., in connection with the National Lines of
Mexico, operate Four Fast Trains Daily between Texas and Mexico
via Laredo. The time from San Antonio to Mexico City being only
34 1/2 hours, or a day and a half, and 302 miles shorter. Correspond-
ingly as quick from all Texas points via I. & G. N. The cities of
Monterey, Saltillo, San Luis Potosi and Mexico City are reached
directly in through Pullman Buffet Sleepers without change. This
route also forms the new short line via Monterey to Torreon and
Durango, direct connection with through sleepers to and from Du-
rango being made at Monterey.
